My Name is Autwin Pecore and
I served for about forty years for the
Citizen Band. Patuxentomic Tribe as
Chairman and worked for other Tribes
Welfare in this Area

In 1967 it was determined by Depart-
ment of Health, Education and Welfare that
services are available as medically
indicated to persons of Indian descent
belonging to the Indian Community
served by the local facilities and programs
and non-Indian wives of such persons
Generally, regarded as within the scope
of Indian Health and medical service if
he is regarded as an Indian by the
Community in which he lives as evidenced
by such factors as tribal membership,
enrollment, residence on tax exempt
land, ownership of restricted property,
active participation in tribal affairs,
or other relevant factors.

{ Blood Quantum a factor only with
members of five Civilized Tribes }

It was agreed to Congress by the Health, Education and Welfare that they would treat the Indians to elevate the Health Status of the American Indian to the highest possible level.

The Health programs are more beneficial than any other program we have for our Indian people and I would ask the Tribes to not discriminate against each other but work together for Health Care for as many people as possible.

The government helps all immigrants coming into our country.

Who Comes First?

Let's Indian Tribes help each other and work effectively for Health Treatment for all our people.
